HEALTH SURVEY

This is a list of questions about how your organisation is set up and what you have in place. Depending on the size of your organisation will determine what you need to have as essentials in your legislative requirements within Australia.

All your information will be kept private. We do not distribute, sell, or otherwise provide this information to anyone. Your details are only for us to understand your request for engagement of our services and to make contact with you.

Based on the needs of your ministry, a consultant from our team is assigned to be your ministry's primary contact. An initial on-site visit can be scheduled. This two-day visit may include observing weekend service environments and meeting with the leadership team to discuss staffing structure, systems and various ministry strategies. From the results of this survey and your request for engaging our services, we will review your structure and set up. We then make suggestions on how we can help.
